

# Fake Phishing Simulation

**! We restricted your page, CASE REPORT 517463436493145**

**Warning :** Someone may have reported your page for not following community standards facebook,  
You have 24 hours to fix the issue and prevent your page from being permanently disabled.  
If you feel you did not do this wrong.

Here are 2 ways to solve this problem:

1. Follow the link we provided to review your page
2. provide the information we need to review your page

You have the right to review your page: <https://contact-help-center-eyr7o.ondigitalocean.app/>

Please note that if we do not accept your complaint, our decision will be final.

Thank you for your understanding and cooperation.

# Analysis: Why This is Phishing

## 1. Fake Urgency + Threat Language

- “You have 24 hours..”
- “Your page may be permanently disabled..”

These are scare tactics to force you to act fast without thinking.

## 2. Suspicious Link and Profile

- “<https://contact-help-center-eyr7o.ondigitalocean.app/>”
- “Community Support Center”

Not a Facebook Domain nor the user profile, Real Facebook links are from [facebook.com](https://facebook.com) or [meta.com](https://meta.com) and the user profile definitely has the verified batch. This one is a malicious phishing account and site, probably built to steal your login.

## 3. Unprofessional Grammar

- “If you feel you did not do this wrong.”
- “We restrict your page, CASE REPORT...”

Weird sentence structure is common in phishing scams. Real platforms use clear corporate language.

## 4. Scam Domain Hosting

- Hosted on DigitalOcean (ondigitalocean.app)

Facebook would never use third-party cloud app domains for reviews or login pages. This is a spoof site.

## What to do:

- **Do not click the link**
- **Report the message to Facebook using the official “Report” feature**
- **Mark as Spam/Phishing**
- **Educate your team/community about these scams**
